## OBJECTIVE

---

Highly motivated **Computer Science Engineering student (3rd year)** and **Java Full Stack Developer** with strong skills in **programming**, problem-solving, and **software development**. Seeking opportunities to build innovative solutions, gain practical experience, and grow expertise in emerging technologies.

## EDUCATION

---

- **Vellore Institute of Technology, Chennai** — *Bachelor of Technology, Computer Science*  
**Duration:** August 2023 – 2027 |
- **Delhi Public School, Ranchi** — *Higher Secondary Education (12th)*  
**Completion:** March 2023 |
- **Delhi Public School, Ranchi** — *Matriculation (10th)*  
**Completion:** March 2021 |

## SKILLS

---

### Technical Skills

- **Programming Languages:** Java, C, C++, Python
- **Web Technologies:** HTML, CSS, Tailwind CSS, JavaScript, React JS
- **Backend, Databases & ORMs:** Spring, Spring Boot, RESTful APIs, MySQL, SQL+, PL/SQL
- **Software Development:** Data Structures and Algorithms (DSA), Object-Oriented Programming (OOP)
- **Version Control:** Git, GitHub

### Soft Skills

- Team Leadership, Collaboration, Critical Thinking, Problem-Solving

## PROJECTS

---

### Feed Forward – A Collaborative Web Development Project (HTML, CSS, JavaScript, Flask, MySQL)

- Built a platform to connect **food donors** with **charities** to reduce wastage.
- Enabled **listing, browsing, and real-time tracking** of food donations through a streamlined interface.
- Implemented **user authentication, role-based access**, and a reliable **data management system** for smooth operations.

### Urban-EYE – Civic Issue Reporting Platform (React JS, Spring Boot, MySQL, JPA/Hibernate)

- Built an **admin portal** for managing civic issues with **task assignment** and **status tracking**.
- Enabled **image uploads, user notifications**, and **efficient issue categorization**.
- Streamlined **workflows** to ensure faster **issue resolution** and better oversight.

### Genix-Bill – Billing & Inventory Management System (React JS, Spring Boot, MySQL)

- Developed a **responsive system** for managing **product inventory, invoices, and transaction records**.
- Designed a **user interface (UI)** to streamline **billing, stock updates, and sales tracking**.
- Implemented a robust **backend** with optimized **database** for **accuracy, speed, and scalability**.

## CERTIFICATIONS

---

- Google Digital Marketing Course
- C++
- DSA in C
- React JS

## CLUBS AND LEADERSHIP

---

### NEXUS CLUB – Frontend Lead

- Led the frontend development team for tech events and workshops, focusing on enhancing user experience (UX) and optimizing web interfaces using modern technologies.
